Dear Mr. Perry,

There are two CRP Contracts on F289. Contract 119 on Tract #622 was owned solely by Robert. Contract 118 on Tract 616 was owned jointly by Ruth & Robert. Both were extended from September 30, 2007 until September 30, 2012.

If there is no successor-in-interest to the contracts, there will be no penalty. The new owner has the option to succeed to the contract within 60 days of the date of this letter. Eligible person(s) who acquire interest in land under CRP-1 may:

- Enter into a binding agreement with CCC for the remainder of the CRP-1 period of September 30, 2012
- Be jointly and severally liable for complying with terms and conditions of CRP-1
- Would be responsible for:
- Refunding all payments made since the effective date of CRP-1, including payments earned by previous participant, if CRP-1 is subsequently terminated
- Complying with payment limitation provisions
- Complying with landlord and tenant provisions

If a revised CRP-1 is not signed with 60 calendar days from the date of this notification, the Conservation Reserve Program Contract shall be terminated.

I have enclosed contracts that can be completed as applicable as well as the corresponding extension forms.

This farm has participated in the Wheat & Feed Grain program in the past. I included a worksheet showing the payment earned in 2006.

There are required eligibility forms that must be filed by new participants. As soon as I know if Ruth will continue to participate or if there will be a new participant, I will follow up with the appropriate paper work.

Please do not hesitate to contact this office as questions arise.
